BROWN & BLACK BEAR HUNTS

With their density far surpassing any other North American population, our brown and black bears provide a wonderfully unique and exciting personal hunting experience found only in Southeast Alaska's Tongass National Forest. Most bookings are made a year or more in advance. Call now and reserve the trip you desire. We look forward to having you aboard soon!

GOAT HUNTS

We offer a one-of-a-kind, world class late season November mountain goat hunt. Operating since 1990, we have enjoyed a nearly 100% success rate on these single species hunts. You will take a local seaplane to and from our luxury yacht. We'll anchor in a small cove in the middle of Mountain Goat country and use our 16 foot aluminum boats to reach our hunting areas each day. After your day's hunt, you'll arrive back at our luxury yacht to delicious meals, hot showers, and warm, comfortable beds.

Accessibility, Long-Haired Goats, and our five-star accommodations, make our Mountain Goat Hunt the finest available in North America.

SPRING & FALL COMBO HUNTS

Combination hunts for Brown and Black bears are available on Spring or Fall hunts. Sitka Deer and Wolf are available in the fall — usually in conjunction with Bears.
