

Yacht-based **GUIDED HUNTS**

We base all of our hunts from our 80' luxury yacht with all the amenities of home, specializing in big game hunts for SE Alaska coastal brown bear, black bear, one-of-a-kind November long-haired mountain goat hunts, Sitka deer, as well as custom fishing and sightseeing cruises. We hunt on USFS lands in the Tongass National Forest of SE Alaska by special allocated permit.

BROWN BEAR

We offer personal 1x1 service with our 10-day Brown Bear hunts, only taking 2 to 4 hunters at a time to ensure you the best opportunities to see and choose from as many trophy bears as possible. The average size of our bears are 8½' - 9½'. This is a good representation of the coastal bears in SE Alaska. These bears can measure up to 9½' in this part of the state. Typically this is the largest size you will find in this area. You will see the most Brown Bears in this part of the state, as we have the highest recorded density in the State of Alaska on what is known as the ABC Islands. We have guide use areas on Baranof Island. You will likely see at least 20 different bears while hunting, and most of the time a lot more – sometimes 40-50.

JOIN US!

We offer fall and spring brown bear hunts with nearly 100% opportunity and 80-100% success rates. Since we have a very limited number of Brown Bear hunts, they are very personalized and we are hands on. Along with the comfort of a warm yacht and meals prepared by our chef every evening, this creates the backdrop for your groups fantastic and successful Alaska hunting experience.

*This is
Raw, Wild Land*

BLACK BEAR

On our black bear hunts we maintain a 95-100% success rate.

These are 6-day hunts, and we can take up to four hunters on these hunts. We average 7' with bears ranging from 6½' to-7½'. Some exceptional few are nearly 8'. We hunt these trophies in the same fashion as the brown bear, in both the spring and fall, using the same methods and techniques based from our 80' yacht. Unlike the majority of other operations in Southeast Alaska who have one guide use area and are confined and limited to it and its beaches and bays, our three black bear areas encompass the majority of Southeast Alaska's finest and most productive trophy black bear habitat, known as Guide Use Unit 3, which includes Kuiu and Kupreanof Islands. Having three areas gives us flexibility to move around when needed. We also have the ability to use two closed old logging road systems via motorized land transportation on the two different islands. This at times is a huge advantage and can be the difference in the success of the hunt or not. Being able to use the road systems, as well as the beaches and bays, creates a hugely successful hunting experience. No matter how you have hunted that day, each night is spent on board our luxury yacht.

LONG-HAIRED MOUNTAIN GOAT

Our mountain goat hunts take place in November every year. That is when they have the trophy hair of 6-8" or longer. The long hair is truly what makes an awesome trophy in a mountain goat as well as accessibility. We do not have to climb for our goats because of the rut and snowfall that take place this time of year. The country we hunt in is an experience in itself to see. You are surrounded by grand glaciers calving and geology like you have never seen. We are the original purveyors of the November late season mountain goat hunts by boat and have been doing these hunts since 1991 with limited allocations by the Forest Service each year. Our billy goats average 9+", and vary from 8.5-10". In that time we have had nearly-100% success rate with 100% opportunity on these 7-day hunts. This alone speaks volumes about our hunt. The area we hunt is the only one like it in North America, with a high population of between 400 and 600 goats. On a bad day we may only see 20 or 30 goats. On a good day we can see as many as 100 goats. The long hair, accessibility of the goats, not having to climb to hunt them, along with five star accommodations aboard our luxury yacht each evening is what makes this hunt so unique. Each hunter has their own private cabin with full bathroom. You will have all the amenities of home, along with a full time chef on board.

Our desire is to provide the world's finest late-season mountain goat hunt, as we have since 1991. Many clients who have come with us have done so because the first, second, or third mountain goat hunts they went on were unsuccessful in one or several ways. What we offer is not your normal goat hunt. Anyone who would like to hunt a late season long haired trophy mountain goat can do so with us successfully regardless of age or physical ability.

MORE ADVENTURES

We also offer two other world-class adventures during the summer months of June, July, and August. Our ocean fishing trips offer you Alaska's finest salmon fishing, anchored in a remote setting and an abundance of fishing opportunities with guides whose passion is strictly fishing.

CRUISES

5-7 day cruises taking in all Southeast Alaska has to offer adventures between ports of Sitka, Juneau and Petersburg.

OCEAN FISHING

Amazing 4-5 day halibut and salmon ocean fishing excursions.

Both adventures accommodate groups of 2-12 guests per trip.

WHAT REALLY SETS US APART?

It's not the decades of experience within the same areas. It's not the luxury yacht. You will not find anyone who will work as hard as we do to ensure a satisfying and successful hunting experience for you. We hunt as much as we can, as long as we can, and know the country and animals very well, to offer you experienced guiding successfully and safely at its finest.

Our small family business is run solely from word-of-mouth and has been since 1991. People who come hunting with us know our reputation as being honest and forthright. You most likely will never find another guide service who will work harder than we do to find you the trophy that you deserve and have paid for the opportunity to try to have a fair chase hunt at. Success typically follows nearly every time.

We love doing what we do. It's only fun for us as long as we are providing a fun and successful adventure and hunt that fulfills our clients dreams, desires, and expectations. Your success is truly our greatest reward. While there are too many variables to guarantee you 100% success (wild country = wild game) we do operate and believe in doing everything we can to ensure you a 100% opportunity to have a successful hunt. This is providing you a fair chase opportunity at your desired game.

AMENITIES

We also run a hospitable, home-style hunting camp atmosphere on board with personalized service and five star accommodations. Our home is your home while you're on board. Please feel welcome and help yourself while on board. We want you to have fun and enjoy your stay with us. We will only provide a very successful, personalized hunt. We will not waste your time or your money. This means a small number of guests, with our hands on involvement utilized by first class equipment, accommodations, and top notch hunting concessions. The hunt you experience with us will very likely be a hunt you will have fond memories of, lasting you a lifetime. This alone being the best bargain of all.

While we stress and believe in the 100% opportunity hunting, we are also firm believers that the total experience is as much or more important than the harvest. True memories you take with you are the experience of the hunt or adventure. It's how you did it, and all the events, scenery, accommodations, and people along with the hunt that make the difference and memories to be taken with you! We have over three decades of hunting experience in Alaska, as well as being full time Alaskan Residents for these years. You won't get inflated stories from us trying to sway you to book with us, by giving you misguided stories and bogus statistics that seem to plague the industry. We do our honest best and let you decide. We will be happy to provide you our excellent references upon request.
