

Alaska BLACK BEAR HUNTS

Experience the Alaska hunting trip of a lifetime aboard our new 80' yacht, the *Alaskan Harvest*. All bear hunts are conducted from this luxurious full-service floating lodge.

Our three black bear areas encompass Southeast Alaska's finest and most productive trophy black bear habitat. Unlike other operations, we have the ability to use closed road systems, as well as the beaches and bays, creating a hugely successful hunting experience—maintaining a 95-100% success rate, and averaging 7' bears.

We hunt these trophies in the same fashion as the brown bear, in both the spring and fall, using the same methods and techniques based from our 80' yacht. We'll anchor in a quiet, secluded cove or bay and use our seaworthy 16' aluminum boats to reach our hunting areas each day,

Five-Star ACCOMMODATIONS

WHAT REALLY SETS US APART?

It's not the decades of experience within the same areas. It's not the luxury yacht. *You will not find anyone who will work as hard as we do to ensure you have a satisfying and successful hunting experience.* We hunt as much as we can, as long as we can, and know the country and animals very well – to offer you experienced, successful, safe guide service at its finest.

AMENITIES

Start and end each day on the yacht with delicious meals and relaxing accommodations, while you share stories of your adventures. Enjoy a hospitable, home-style hunting camp atmosphere on board, with personalized service and five-star accommodations. With hands-on involvement, first class equipment, accommodations, and top notch hunting concessions, the hunt you experience will bring fond memories lasting a lifetime.

On board are five cabins—three with private bathrooms, and two with a shared bathroom. Each bathroom has a private sink, head, and shower.

While we stress and believe in the 100% opportunity of a successful hunt, we also believe that the total experience is as much or more important than the harvest. Your memories of the adventure—how you did it, the events, scenery, accommodations, and people, along with the hunt—these make the difference!

You won't get inflated stories from us trying to sway you to book with us, by giving you misguided stories and bogus statistics. With over three decades of hunting experience in Alaska, as full-time residents, we do our honest best. We will be happy to provide excellent references upon request.
